SENIOR LIVING COMMUNITIES

STORIES THAT INSPIRE. COME FROM WITHIN.

We all have a story that defined us, changed us, or taught us. Our residents have an abundance of stories that hold a wealth of wisdom.

Our own story was inspired by theirs. It began in 1979. Our founder pioneered the concept of senior living that's really living with purpose, dignity and independence... and our story was born.

At American House, your next chapter is waiting to be written. We'll help you write it your way and you'll see why so many seniors are happy to call our house home.

Assisted Living*

Assisted living offers private apartments but with a little added assistance with meals, laundry, medication reminders, physical therapy and all the activities of daily living (ADL) and more. Choose from à la carte services, or our third-party health care provider can create a custom-care plan just for you.

Memory Care*

Our personalized Memory Care program is designed to help residents, throughout the stages of dementia, to live with dignity and compassion. The specialized, person-centered program creates a culture of caring for our residents, support to their loved ones, and help navigating the complexities of the disease.

Respite Care*

We're happy to offer short- or long-term respite care services. Our Respite Care program is an interim solution, helping families cope with life events, providing the healing comforts of home. Respite Care services are often needed after recent discharges from hospitals, recovery after surgery, or when caregivers are away.

Hospice Care*

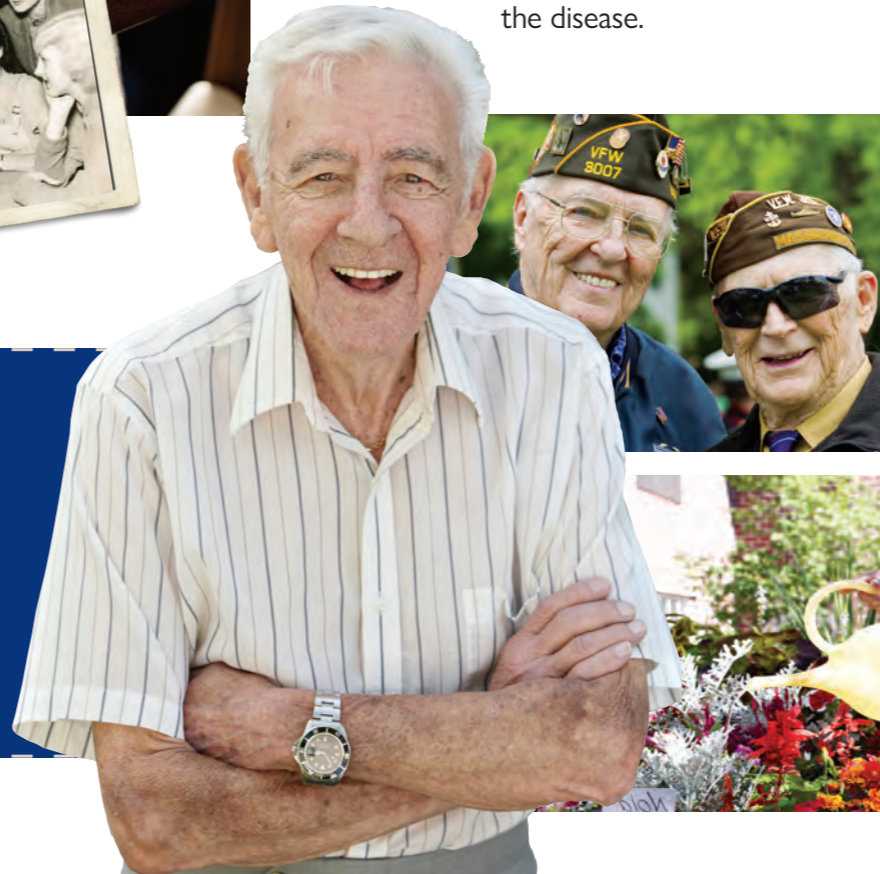

American House partners with Hospice Care providers, offering understanding and meaningful support to both your loved one and your family. Palliative services, also through hospice, can offer a customized plan to maintain the comfortable surroundings to which our residents are accustomed. We're committed to you and your loved one.
